1st MORTGAGE BONDS.
Issue Only $18,500 per Mile.
THE ROAD NOW EARNING NET, NEARLY DOUBLE THE ENTIRE INTEREST OBLIGATIONS.
THE LEADING POINTS IN RELATION TO THESE BONDS ARE AS FOLLOWS
The Stockholders have built a first class road and equipped it in a first class manner, mainly with their own money
They have built their road through one of the richest portions of the State, where all the old roads into Chicago are earning over $10,000 per mile per annum and are paying large and regular dividends
They have built the shortest road to the celebrated Black Coal Mines whose products have large and increasing market in Chicago, in the manufacture of iron, as well as for domestic uses.
The road is already earning so large an excess of its interest liability that its Bonds are safe beyond contingency
The amount of the mortgage is very moderate, being only about $18,500 per mile
While Railroad Bonds may be plenty, loan upon profitable lines, are for so small an amount are seldom in the market
Over $1,300,000 of these Bonds have been sold in a few weeks to Trust Companies, Savings Banks, trustees of estates and to most careful private investors, and but a small amount remains, for which early application should be made
That as only a small amount remains unsold, parties who want them should make immediate application.
The Bonds are for $1,000 each, have forty years to run and bear interest at the rate of 7 per cent. per annum, payable on the 1st of April and October, both principal and interest being payable in gold in New York
Price 90 and Accrued Interest
We do not hesitate to commend these Bonds as unusually safe They are intended with none of the uncertainties of projected enterprises, and the prompt payment of the interest and the final payment of the principal are certain at any future financial event can well be

THE INDELIBLE RECORD.

When the People are called upon to choose between opposing candidates for representative positions, they naturally desire to examine the political antecedents and public record of the aspirants, in order to judge their probable action in the future by their actual conduct in the past; and with this view we present our readers with another instalment of the record of Marcellus Emery during the most critical period of our national history, as furnished by his own words.

While Grant and Sherman and Sheridan were dealing the staggering Rebellion those ponderous blows which resulted in a magnificent triumph of the national arms, an assemblage of Tory Democrats, incited thereto by the coward appeals of the "Bangor Democrat," gathered in Convention at Dexter, on July 4th, 1864—of all days in the year—to demand peace on any terms. At that Convention Marcellus Emery, who now wants to go to Congress, was a leading spirit, and delivered an inspiring address from which we copy the following extracts as reported in his paper:

* * * "He would not deceive them if he could; he could not, if he would. They were standing to-day AMID THE WRECK AND RUINS of the most glorious Republic that ever adorned the earth, and OVER THE GRAVE OF BURIED LIBERTY.—The gentle summer winds which were sighing so mournfully through that grand old forest seemed to him to be playing the requiem of the Union,—BURIED BEYOND THE HOPE OF RESURRECTION.

* * * * * *

As he looked upon that banner now, he felt that that cluster of stars only remained there A MOCKING EMBLEM OF a glory and a joy which ONCE EXISTED, but are NOW GONE FOREVER. He almost felt that he could reach forth his hand, and PLUCK FROM THAT SEMICIRCUMFERENCE the bright star that glitters to the name of Maine; but he could leave the STRIPES behind, as A FITTING EMBLEM OF HER PRESENT DEGRADATION!

* * * * * *

He would not appeal to DEMOCRATS to exert their power and influence to end the war. THEIR HEARTS WERE ALREADY IN THE WORK; but he would appeal to REPUBLICANS,—to all who had hitherto given their support to the war * * * to unite with all good men to PUT AN END TO THIS ACCURSED WAR.

* * * * * *

Throughout, the meeting was a GRAND SUCCESS. It was mighty in numbers, there being more than fifteen thousand people present. It showed that in the DEMOCRACY OF MAINE THERE IS BUT ONE THOUGHT AND ONE WORD—PEACE."

This was late in the war, but to show that his patriotism was consistent, we cite the following editorial from his pen, only a few days after Rebel batteries had assailed Fort Sumter; and it would be fitting that some such open declaration of his treachery should be legibly stamped upon every ballot bearing his name that is offered to a freeman of Maine:—

"ALL HONOR TO THE GALLANT DEMOCRACY OF PENNSYLVANIA! Their Representatives in the Legislature have NOBLY GIVEN UTTERANCE TO THEIR SENTIMENTS IN VOTING TO A MAN, against the Tory bill of Gov. Curtin, appropriating $1,000,000 TO RAISE AN ARMY for the SUBJUGATION OF SOVEREIGN STATES. The brave TWO HUNDRED AND FIFTY THOUSAND DEMOCRATS IN THE OLD KEYSTONE STATE WILL NOT LIFT AN ARM AGAINST THEIR GALLANT BRETHREN OF THE SOUTH who are only DEFENDING their homes and their firesides, their liberty and their lives against the ASSAULTS OF AN INVADING FOE."

How many of the citizens and citizen soldiers of Maine are ready to "fall in" under that banner? On the 21st of May, 1861, while our armies were in the field confronting the hosts of treason, Mr. Emery gave evidence of what his legislative action would be in such an emergency, by calling for some Senator to come forward and make a cowardly appeal for surrender in words which he suggested as follows:—

"SENATORS: You cannot conciliate the South by your present measures. YOU CANNOT SUBDUE HER by your present OR BY ANY MEASURES. What then can you do? You can not conquer; you cannot gain but you can yield: etc. * * * *

And then he goes on to make his imaginary Senator threaten the loyal administration thus:—

* * * "But in such a war as this, UNJUST IN ITS PRINCIPLE, impracticable in its means and ruinous in its consequences, I WOULD NOT CONTRIBUTE A SINGLE MINCE NOR A SINGLE SHILLING. I do not ask for vengeance on the heads of those who HAVE BEEN GUILTY; [the loyal administration and Congress presumably] I only recommend them TO MAKE THEIR PEACE. LET THEM WALK OFF; AND LET THEM MAKE HASTE, if they may be free that WRATH AND CONDIGN PUNISHMENT will overtake them."

This is the language which Emery would have put in the mouth of an American Senator when armed treason was marshalling its legions to overthrow the Government. Every loyal man of Maine stands aghast at this effrontery which appeals to public confidence on such a record; and that its recollection is a stench in the nostrils of the loyal Democracy, was testified in the Portland Convention two years ago when W. G. Chadbourne exclaimed:—

"WHO IS THIS MARCELLUS EMERY? WHAT HAS HE EVER DONE FOR THE DEMOCRATIC PARTY? * * * * *

The Democratic party owes him nothing, BUT HAD IT NOT BEEN FOR THE LOYAL DEMOCRACY, HE WOULD HAVE DANGLED FROM A BANGOR LAMP-POST IN THE EARLY PART OF THE WAR! * * AND PERHAPS IT WOULD HAVE BEEN BETTER FOR THE PARTY IF HE HAD BEEN HUNGED!"

THOSE REPORTERS.

To those sprightly youths who vary their sportive recreations by scribbling paragraphs for the *Commercial*, we wish to say that their efforts will only attract our attention when their misstatements concern matters of public import, in which cases we shall inclusively continue, in the future as in the past, to bring them to exposure and grief. If they will avoid inventing falsehoods, it will save us trouble and ease their own consciences, if they have any; and if they will cease telegraphing falsehoods abroad they may escape such a rebuke as was recently administered by the Boston Herald, a paper politically allied with the *Commercial*, from whose office its reports are received. We don't know which of the galaxy indited the squib in yesterday's issue, but if the same youngster who was reproved once before for lucubratively challenging a comparison of figures as to circulation, from which our contemporary most ignominiously backed out, he will probably earn a box on the ear from his chief for resurrecting that uncomfortable topic. As to its report of the numbers at our Rally, in the torchlight procession, etc., its statements are either ignorantly, stupidly or deliberately false—probably the latter—and we do not choose to dignify its assertions by citing the facts in our possession and currently known, to correct statements already branded that reduce the actual numbers by at least one-half.

One of the "staff," however, identifies himself and chivalrously dashes to the defence of his playmates with a plaint, from which we clip the following:

"In his capacity as local editor of this paper the Herald correspondent begs leave of the high-toned Write to question the propriety of its making *Commercial* reporter a participant in every disturbance of a political character that occurs in this city."

Prettily said; but the fault is not with us, but with those impudent reporters, who develop such a remarkable propensity for taking a hand in all such proceedings. Of late we have mentioned two instances: one in which a *Commercial* reporter sanctimoniously headed the motley crew which trailed to and fro past our office howling Greeley songs and shouting slang phrases to disturb the exercises of a Republican gathering; another, in which a *Commercial* reporter sat perched on the box of a carriage containing McCrillis and his boy companions, who disturbed the quiet of our neighborhood by bellowing out the Greeley song again, in front of our office, to the amusement of street loafers and the intense pity and disgust of sensible people. If it will relieve the sensitive members of the "staff" for us to specify by name the particular young gent who participates in these affairs, we will carefully do so in the future. If the youngsters of the *Commercial* will disregard bad advice and avoid taking conspicuous part in disorderly demonstrations we shall not be called on to administer a necessary reproof, and we shall be all the more pleased to recognize the in good behavior, inasmuch as we are aware that not they but their elders are really responsible for their misconduct. Try and behave better in the future!

KILPATRICK'S FIASCO.

In his recent blasting raid upon the Republican press for allowing the scandalous stories concerning him published in detail by Democratic papers, Gen. Hugh Judson Kilpatrick attempted to make a grand coup by bringing a criminal complaint against Mr. Jennings, the editor of the N. Y. Times, for libel, with the purpose, it has been alleged, of causing the arrest of that gentleman at an hour when the Court should not be in session to receive bail, thus to afford Kilpatrick revenge and the Greeley papers with a sensation to offset the damaging effect of his stumping tour in Maine. The following paragraph published in the Times was the basis of the action, Kilpatrick asking the Grand Jury to indict the editor for libel:—

"Judson Kilpatrick of New Jersey, formerly Minister to Chili, tried to force an abandoned woman into Chilian society and was recalled. Has long been a reproach to the Republican party and has now happily gone over to the Democracy."

The Tribune used all its influence to procure an indictment, actuated by its hatred of the Times, but the Grand Jury refused to take action on the complaint, whereupon the Tribune confesses the failure with the following significant comments, to which we would call the attention of Col. J. Frank Godfrey, member of the Liberal Republican State Committee and attorney for General Kilpatrick:—

We gladly give prominence to the fact that the indictment found against the Editor of the Times on the complaint of Gen. Kilpatrick, after having been unanimously voted, has been rescinded by the Grand Jury, as not presented. The presumption is in favor of the Times and against the complainant.

The Times declares that the statement that favorable action had been taken upon the complaint at any time, is unqualifiedly false, and remarks:—

The Grand Jury were discharged yesterday, without having brought any indictment against any editor of this paper, notwithstanding all the assertions of the Tribune and other papers to the contrary. These sections were one and all utterly false. Mr. Greeley's paper, having tried to "bully" the Grand Jury, after the style of a Tombs lawyer addressing a nervous Magistrate, now insults them by saying that the "editor's" influence was too strong for them. It is, perhaps, needless to say that the editors of this paper do not know any gentleman connected with the Grand Jury; have no influence to exercise in any quarter, and would not exercise it if they had. It has also been stated that "efforts" have been made to stop the Kilpatrick suit, if any such efforts have been made, they have proceeded solely from Kilpatrick's friends, and perhaps the less they have to say on the subject the better. It may be for their principal, it may be as well for them to follow the case to its course, should it be brought forward in any other form, without publishing falsehoods about it on the one hand, or trying to bully juries and judges on the other. The course which Kilpatrick's friends have lately been pursuing, through the Greeley papers, is not calculated to promote his interests in any way.

It is said by those who should be well informed, that the Grant-ite authorities of Bangor secretly remit the fines of all liquor-sellers who promise to support Grant. Whether influenced by regard for temperance, the Grantites do here, and now say do say up to the Temperance plank in their platform—August a "Liberal Republican."

It does not require that a person should be more than tolerably "well-informed" to enable him to see that a sheet which gives currency to such a witless libel as the above, can only regard lawsuits as bubbles or knaves.

The *Commercial*, since its editor walked upon Horace at Augusta, prints his name: "Hon. Marcellus Emery, Ed."

The New Bedford Mercury says that nine days before apples come out for Greeley he entered a member of Congress turn behind his thoughts of deserting in policy.

THE AUGUSTA SHOW.

At the "Dolly Varden" Convention in Augusta, Pillsbury was smilingly ubiquitous, and after making his compliments, now departure speech, proposed to make Tom Lang's nomination unanimous, which was done. "Lang said he regretted that the nomination had been thus forced upon him, but with God's help he would do all he could in the dilemma." Carlton, the "Avenging Sword," the aunt of successive Legislatures, and an officious member of the Convention which nominated Mr. Blaine and not Jason was conspicuous among the zebra gathering of Thursday. In order that the character of Liberal Republicanism may not be misunderstood, we quote the following resolution, which was made the equivalent for the Democratic support of Lang. Read it, it is very suggestive:

Resolved, That inasmuch as the vote for Perham for Governor of this State, will be proclaimed throughout the country as Grant's strength in this State, a wise policy demands that all who desire the election of Horace Greeley for President, should throw their votes in September for Charles P. Kimball for Governor of this State.

Of the size and character of the demonstration we can only judge by comparing the reports of the papers. The "Liberal Republican" modestly claimed the presence of 15,000 to 18,000 "Liberals," with unbounded enthusiasm. The Journal estimates 2,300 as the limit of arrivals in the fifty-odd cars, including Gardiner and Hallowell people, and that half as many more came from the surrounding towns. The margin between the two estimates is a wide one, and some one is evidently mistaken. The prominent speakers promised, Banks and Trumbull, were conspicuous by their absence, and after Horace left, small fry orators took turns on the stand, dwindling down to C. P. Kimball. Both the Journal and Boston Advertiser report that the affair ended in a series of drunken rows among the excursionists, which continued till the last trains left. On the whole, we judge the Horace's ovation was not a success.

Schenck's Mandrake Pills for Liver Complaint.

Liver Complaint, Jaundice and all bilious disorders arise from torpidity of the Liver, causing a flow of an acrid bile, inflammation of that organ producing an overflow into the stomach and intestines, or from a derangement of the digestive organs with which the liver is so closely connected. Unhealthy bile in the gall bladder and the liver, will irritate, corrupt and poison the general circulation of the blood, and which it then circulates over the body, causing a sallow tinge and torpor of the whole system. Either of the above described derangements of the functions of the liver produce numberless forms of disease, the whites of the eyes are yellow, the tongue coated with a yellowish white or brown tinge. When the liver is thus torpid, digestion is unhealthy, (sometimes) a fair appetite and no nutriment at all; the patient will suffer from constipation or diarrhea, or sometimes both; a general drowsy and melancholy feeling, often with pain and sleepless great weariness; nothing is often felt. The stomach laboring to digest food, often creates a palpitation of the heart, and is frequently mistaken for heart disease. Frequently the skin breaks out in blotches and sores, or marked symptoms of erysipelas, with great itching and insufferable restlessness. The urination from accepted poisons in the blood often producing an irritation of the urinary membranes of the genital tubes, and from a slight cold sore throat to fever, with a dry tongue, sometimes alternating often human and chilling. This unhealthy bile mixed with the blood passes into the kidneys, frequently pain in the urinary passages, sometimes pain in the back and darting pains through the shoulder blades, and frequently all through the body; a sensation frequently felt near the region of the liver, across the stomach and side, many dangerous complaints have their origin in a derangement of the liver and stomach. Two-thirds of the cases of Consumption originate from liver complaint, intermittents, pleurisy and bilious fevers, yellow color, costiveness, diarrhea, chills and fever, etc. Frequently one box of Schenck's Mandrake Pills will remove nightmare, they have no effect on the liver similar to mercury. By taking a dose, according to the directions, on Friday night for a week or ten days, they will regulate the liver and throw off a dangerous, and soon prevent its natural functions without the use of large doses of purgative medicine. In the spring of the year these pills are peculiarly adapted to commonly unknown, and a box of these Pills may prevent a cold, fever or ague, or other sickness during the whole season. They are warranted not to contain a particle of calomel or mercury in any shape, and are perfectly harmless.

My Pulmonic Syrup has been before the public many years, and as it used hundreds from their death bed. Since the invention of the Mandrake Pills I cash confidence in many cases where I could not advise. The usual and over dose of cathartic or inactive the Syrup cannot digest and over dose of Mandrake Pill, as night, although the patient will think they were having no effect will soon regulate the stomach and liver without reducing the patient, and the Pulmonic Syrup will then be resting and strengthening the circulation. These Pills act on the liver similar to calomel, and I do not hesitate to say they are equally as good as calomel or mercury in their composition, or anything to purify the system. I feel a great pride in the other day in food of life giving power, and the Lakes of Life over the commonest Life Pills for sales. I have reason, the said the Mr. Cowgill sent to my store a short time ago and said, I feel so grateful I can hardly express it, my wife had been confined to her room, and could not get out of bed, I gave her a box of your Life Pills, and in a few weeks she was able to walk about the room, I gave her another box and she is now well. About eight years ago, when I was receiving patients at the Harrison Hotel, in Boston, a lady called to see me and said she had been complaining for a long time with a Tape Worm as her physicians thought. She said that she was in great pain at times something would twist around in her stomach and gave some of terrible heartburn and thought she should die, nothing would satisfy her but a glass of milk; she would have to take a quart every night to bed with her, and when it would be gin to move she would take warm or cold water, the lady, when she vomited, was a sight to behold, bowels very costive, tongue coated, breath offensive, and a very low complexion, very nervous, and almost a subject of the insane asylum. I gave her some Sea-Weed Tonic and Mandrake Pills in large doses, the pills are three consecutive nights, and then one each night for three nights, then bowels being in such a weak state, I recommended an enemas, made of pills to a tea of hot water, and then to come and see me again. She came and said she was very sick; said she did not expect to live, I told her to go home and take a dose of pills, and I would see her in the morning. The next day she came and said she was better, she vomited the worm, and thought she could live. I gave her a box of Life Pills, and in a few weeks she was able to walk about the room, I gave her two boxes of Life Pills, and in a few weeks she was able to walk about the house, and in a few weeks she was able to walk about the street, and in a few weeks she was able to walk about the city, and in a few weeks she was able to walk about the country, and in a few weeks she was able to walk about COUNTY CONVENTION.

LEWISTON, Me., Aug. 16.

The Androscoggin County Republican Convention to-day, nominated Jeremiah Dingley jr., of Auburn and Jesse Davis of Lisbon, Senator; D. P. Atwood of Auburn, clerk of courts; Geo. S. Woodman of Auburn, Register of Probate; Wm. D. Rook of Durham, Commissioner; A. F. Merrill of Lewiston, Treasurer; Geo. C. Wing of Auburn, County Attorney; Silas Sprague of Auburn, Register of Deeds.

HORACE GREELEY OFF.

PORTLAND, Aug. 16.

Mr. Greeley left in the 6:10 train this morning for Portsmouth.

ACCOMMODATION—HORACE PROST—NO ENTHUSIASM.

PORTSMOUTH, N. H., Aug. 16.

Mr. Greeley arrived here about noon from Portland, accompanied by Frank Jones and other Democrats of this city. He was received by quite a crowd at the depot and rode to the Rockingham House, where he was invited out to a small assemblage of citizens by Hon. H. Frink and made a very prosy historical speech. Mr. Greeley will be taken to Rye Beach with Democrats in carriages with a horse this afternoon, and will spend the night at H. Jenness' boarding house. No public enthusiasm is apparent here.

REPUBLICAN RALLIES

AT PORTLAND.

PORTLAND, Me., Aug. 16.

An enthusiastic Republican meeting at City Hall to-night is being addressed by Hon. Mark H. Dunnell of Minnesota. Hon. T. C. Hussey is presiding.

GREAT DEMONSTRATION IN LEWISTON.

LEWISTON, Me., Aug. 16.

Hon. Austin of Minnesota and Gov. Perham of Maine, addressed a large Republican meeting at Auburn Hall this afternoon. This evening there was a Republican torch-light demonstration, which despite the rain was a marked success. The streets along the route of the procession were crowded with people and great enthusiasm prevailed. There was a display of flags, fire-works and patriotic decorations. A national salute was fired on the park. By reason of the rain the meeting appointed for the park was held in Lyceum Hall where a dense audience was addressed by Judge Bingham of Ohio. Hundreds went away unable to obtain admission. Music was furnished for the occasion by Johnson's Band. A large delegation of Tamers with torches from Lisbon arrived at nine o'clock with the Durham Band, the train having been delayed more than an hour.

DOMESTIC NEWS.

NEW YORK.

THE RING SUITS—NO COMPROMISE.

NEW YORK, Aug. 16. Attorney-General Brewster states that the reports that the civil and criminal suits against Tweed, Sweeney and others have been compromised, and abandoned, are false. The friends of the defendants in January offered a compromise by the payment of certain sums, but Judge Barlow declined to entertain any such proposition. A hearing on the demurrers will be had the latter of September on civil suits and they will probably be tried before the close of the year and the criminal suits will be brought before the courts as soon as there is a judge on the bench in whom the public has confidence.

A MANIAC MURDERER.

Flannagan, who murdered his wife last night was a raving maniac; his insanity being caused by recent sickness and the extreme heat. He stabbed his wife six or seven times and furiously kicked her head and body after death, ere he could be secured. He was carried to the station house and is in a straight jacket. She leaves eight children.

ANOTHER STORM.

There was another heavy thunder storm between one and two o'clock this morning with a drenching rain. It has been cloudy since sun-rise, but very hot and sultry. There were several cases of sun-stroke, yesterday, fatal.

YELLOW FEVER.

The brig Sea Bird, from Maracaibo with yellow fever on board, has arrived at quarantine. All the yellow fever patients on the Spanish ram Numancia, but two, are convalescent. The ram will be anchored outside the Narrows to-day.

THE STORM.

Rain has fallen steadily since 8 this A. M., and continues this afternoon. The storm continues at Washington and the races at Utica have been postponed on account of the rain.

IN GENERAL.

During a fight at Rockaway, yesterday, one Hosiven shot a man named Hynes fatally.

The damage by fire in the press and paper room of the Christian Union last night aggregates over $30,000.

FROM WASHINGTON.

ABSURD BRITISH CLAIMS.

NEW YORK, Aug. 16. A Washington dispatch states that claims aggregating $117,000,000 have been filed before the mixed American and English Commission from British sources for damages sustained by the capture and confiscation of blockade runners and their cargoes during the rebellion, by the American Government.

PERSONAL.

It is stated that Secretary Boutwell will deliver several political addresses in Pennsylvania next month.

Secretary Fish is reported too unwell to return to Washington at present.

THE PRESIDENT

returns to Long Branch by the late train to-night. It is not supposed that the President will accept the invitation to visit Chattanooga. His letter in reply to it, will, it is probable, be of political significance.

FROM BOSTON.

WENDELL PHILLIPS FOR GRANT.

BOSTON, Aug. 16. In reply to a note from a number of colored citizens to Wendell Phillips to address them on the political issues of the day, Mr. Phillips declines to speak, but gives his views in a long letter in which he favors Grant for President in preference to Greeley, although he agrees with Sumner in regard to the San Domingo affair.

ESCAPED FROM REFORM SCHOOL.

Thirty boys escaped from the State Reform School at Westboro', Mass., yesterday afternoon. It is supposed they were aided by outside parties. None of the boys have been recaptured. The police of various cities and towns have been notified.

ILLINOIS.

A CHARGE DENIED.

CHICAGO, Aug. 15. L. W. Wallace, who was reported by the firm of F. M. Stalley & Co., of which he was a partner as having absconded with $10,000 or $12,000, has returned to this city and expresses the greatest indignation at the report, alleging it entirely untrue and that he had dissolved partnership with the firm before leaving home and was on private business, a fact of which they were aware. The matter will probably be brought into court.

CONNECTICUT.

CLARK REITERATES HIS STORY.

HARTFORD, Aug. 16. Mr. David Clark of this city makes the following reply to the telegrams of Gen. Howard to Secretary Belknap concerning the colored cadet:

Hartford, Aug 16.

Gen. Howard denies in his telegraphic dispatch to the Secretary of War the conversation he had with me relative to the appointment of the court martial to try colored cadet Smith. I solemnly affirm that my report of the conversation is substantially true.—Could I meet Gen. Howard and remind him of the intimations he gave at West Point at the time of the trial, and which he fully explained at my house in Hartford in the December following, then stating to me the position of the President and Secretary of War in this matter, I am sure he would withdraw his denial and acknowledge his forgetfulness. I now call upon the Secretary of War in the absence from Washington of Gen. Howard, to publish my letter to Gen. H., written by agreement between us soon after conversation in December, with the request that he would send it to the President and Secretary of War. Copies of that letter, he subsequently informed me were placed in the hands of those officials.

NARROW ESCAPE. Three laborers were digging for a sewer on Garland street yesterday afternoon, and were working in the ditch about nine feet below the surface of the street, when a fourth man, who was shoveling away the dirt from the edge noticed that a wide crack was opening behind him.—He sprang back and shouted to his companions in the ditch to look out for themselves. They scrambled out of the way as quickly as they could, but not a moment too soon, for an immense mass of earth, which must have weighed nearly two tons, caved off the side of the sewer and fell directly where the man had stood. If they had remained a moment longer they must inevitably have been crushed to death.

GRANT AND WILSON CLUB AT GREENFIELD. The Republicans of Greenfield yesterday organized a Grant and Wilson club with the following list of officers:

Vice Presidents, Jeremiah Leballister, Miram White, B. C. Wheeler, and A. F. White.

Secretaries, Wm. C. White and J. M. White.

Executive Committee, B. C. White, John White and A. F. White.

At noon the club threw out a beautiful flag to the breeze with the names of the Presidential candidates inscribed on its ample folds and gave a round of hearty cheers. An address was delivered by Gen. Hamlin of Bangor. In the afternoon the club assembled again together with the ladies of the place and many citizens from the surrounding vicinity and listened to the remarks of Geo. Cutler, Esq. of Medway, who stated the issues of the day in an impressive and eloquent address of over an hour. Mr. Cutler proved to be an able orator and the audience was delighted with him. He was followed by Gen. Hamlin, who discussed several of the great questions of the day, vindicating the record of the Republican party and expressing confidence in Gen. Grant's re-election by increased majorities. Our informant advises us that the prospects of the party in that section of the county are flattering.

BASE BALL.

To the Lightfoot B. B. C. Houlton:

The Atlantic Base Ball Club of this city sincerely regret that they were unable to play the L. B. B. C. on the 13th, and also regret the "ungentlemanly manner" in which they acted toward the Lightfoots in not informing them of their inability to play on the day mentioned. They intend to visit Houlton Thursday, Aug. 22d, and play if it is agreeable to the Lightfoots. Hoping that you can play on that day, I remain,

Yours very truly,

GEO. W. HATHORN, Capt. A. B. B. C.

THE TRUCH IN A NUT-SHELL.

BANGOR, Aug. 16, 1872.

To the Editor of the Whig and Courier:

"We give it up," said an intelligent lumber dealer of our city, of the Greeley profession, as the truth of the North Carolina election broke upon him—"We give it up—all a right—my logs will sell all the better for it." Unconsciously our friend stated a most important, yet well understood fact. "Logs will sell better!" What a pregnant text for a sermon on the great question, "Who shall be the next President?" Why will logs sell better? Plainly because there will be a greater demand and more ability to pay—more building going on in the country—more profitable business everywhere transacted—labor better paid for—mechanical and manufacturing industry better patronized and more liberally supported—agricultural enterprise more abundantly rewarded, and trade more flourishing everywhere. The answer speaks, too, of peace and harmony, not only at home, but with all nations abroad, and a consequent reign of prosperity, happiness and comfort among the masses of the community. All these results are bundled up with the natural one involving the price of logs in our market.

And why will these grand results follow the rejection of Greeley? The answer is obvious. GRANT is already the occupant of the place—and his policy is established. It is that which has already given the country 3½ years of peace and prosperity unequaled in the history of our nation. That policy will be pursued in its even tenor, without even a joggle of disturbance, as the old administration expires and the new begins. The confidence that governs the people in all enterprises of the future will receive no shock, and these will go on and new ones be inaugurated with all the success that ever awaits on the administration of a stable government.

On the contrary, elect Greeley, and doubt at once pervades every department of business. He comes in without any recognized policy. What will be done about the great business of importation? Will free trade or protection be the watch-word? What will be done with the public debt? And the crowning questions—internal revenue, the Confederate debt, and foreign policy? What about the shipping interest, the interests of manufactures, and the thousand other matters which enter so largely into the great policy of States? Shall peaceful relations with other countries be sustained and encouraged, and the "lost cause" at home be allowed to slumber, or shall the well settled policy of the present administration be all overturned and reversed. Some change must inevitably follow, and a most fearful one may be well anticipated. The very fear of it must greatly paralyze business and lead to curtailments and suspensions necessary to meet the contingencies of the years to come. He professes to be as much of a Republican as ever, but if elected will owe his success to Democratic votes. All history, as well as the dictates of common sense, teach that more or less, he must frame the policy of his administration according to the standard which his supporters set up. What policy then will he adopt? The very doubt will engender distrust, the fear of one course of another will increase it, and both together must warn all against the worst. Like to the prudent mariner, the indications of an approaching storm must not be unheeded, but the sails must be furled and the vessel be put on a storm basis. This must necessarily affect all kinds of business and trade, perhaps most disastrously. If so, all classes of industry must feel it, and the "price of logs" of course suffer with the rest.

A. W. P.

DOOLITTLE SHOWS UP. The N. Y. Times prints copies of letters of ex-Senator James R. Doolittle of Wisconsin, written by him while he was in the United States Senate, to Thomas J. Conatty in which an agreement was made to give Doolittle (at the latter's suggestion), one-fourth of the proceeds of the sale of fifty thousand bales of cotton to be sold by Conatty after having been seized from the rebels while Gen. Banks was in command at New Orleans. The letters are furnished and sworn to by Conatty, for whom the position was obtained by Doolittle.

The National Committee has published another report to the Confederate Secretary of State bearing on the subject of Mr. Greeley's peace negotiations at Niagara Falls. It is from the pen of Hon. C. C. Clay, and contains the most damaging revelations. It appears from this that John Thompson & Co. consented to receive Horace Greeley, because "they believed from his antecedents that he was a sincere friend of peace, even with separation if necessary."

LETTER FROM MISSOURI.

FOLLOWING IN GRATZ BROWN'S STATE.

MARYVILLE, Mo., Aug. 9, 1872.

To the Editor of the Whig and Courier:

Having been raised in the old Pine Tree State, I am very much interested in the welfare of Maine, and more especially during this exciting campaign. To the end that I may become posted in the affairs of my native State and county, a enclose a subscription to your paper.

Political excitement runs high here. Democrats here have been very jubilant over the Greeley hunting, but the news from the "Old North State" is a terrible damper. Kentucky lies hard on their stomachs, and taken all in all, the pill is mighty hard to keep down.—Although Missouri was the birth-place of "liberalism," there yet remain a great many who have never bowed the knee to Baal, and I shall not be surprised if U. S. G. carries even B. Gratz's State this fall.

As for the colored vote, it will go solid for Grant. The colored men say; "We don't trust dem Dem'crats, sar! They'd have us back in de'vy, sar!" The colored people will take care that none of their race votes the Democratic ticket. They are terribly in earnest on the subject. Greeley and Sumner will fail to convince them that the same men, who in times past have treated them like cattle, were not do the same thing again if they only had the power.

By the way, Mr. Blaine's letter to Sumner is all the talk here. The effect cannot but be excellent. We Yankees are very proud of it.

Yours very truly,

J. V. W.

IS "GRANITE HALL," AUGUSTA, MADE OF RUBBER? *Mr. Editor:*—The following from the *Commercial* requires a little explanation. Speaking of the Third District Conventions at Augusta on Thursday it says, referring to the Liberal Convention which met in Granite Hall "The Hall was *densely crowded* with delegates and spectators. * * * Shortly after, the Democratic District Convention *came in—the hall in a body* and announced that they had adopted Mr. Laing as their candidate."

Now, as the *Commercial always tells the truth* its statement of course cannot be doubted, and therefore requires a little explanation as to the *modus operandi* by which a hall "densely crowded" can receive in addition to its fullness an entire Convention from an other hall. It must be that one Convention swallowed the other. Which swallowed which?

THOMAS.

AN INVULNERABLE NOSE. The Portland Press, after properly deprecating the assailing of Greeley serenaders with missiles of any kind, thus remarks of an "organ" which is destined to become politically historical:

The *Commercial* says: "One stone which is now in our office, weighing nearly *two pounds* hit Mr. McCrillis in the face, causing his nose to bleed profusely!" We should think so! Talk about throwing two pound rocks with murderous intent, as the *Commercial* does, and then say the victim "possessed a nose fully!" In Heaven's name, how came he to have any nose left? We congratulate the leader of the Bangor Chappaquiddick on his nose. It is the most reliable, impregnable organ of the kind in America.—Had he lived in Napoleon's time he would have been a Marshal of France before Ney himself. "It astonishes everybody!"

THE DEMOCRATIC BOLT. A Washington special says "Blanton Duncan's Democratic Committee are evidently making considerable headway. Advices from the Northwestern States received here state that there will be full delegations sent to Louisville, selected from among the most respectable Democrats. In Michigan, for instance, the brother of Senator Ferry, always a Democrat, will be a delegate. Wisconsin and Minnesota will send full delegations. Nearly all the State will be represented by bona fide delegates. The break-up against Greeley is far more complete, specially in the South, than coalition managers dream. It is considered now that at least 25,000 Democratic voters in Georgia will support the regular nominations to be made at Louisville."

AN ENEMY'S LIE NAILED. The N. Y. Tribune published a letter from David Clark of Connecticut to the notorious Sayles J. Bowen, asserting that Gen. O. O.

SPECTS OF THE SEA.

BY PAUL H. HAYNE.

Tall, sombre, grim against the morning sky
They rise, scarce touched by melancholy sighs
That thrill the fadeless foliage dreamfully,
As if from realms of mystical despairs.

Tall, sombre, grim, they stand with dusk plumes
Trembling to pale Orbilia the woodland's cone
Beneath the gracious noontide's tranquil beams;
But the weird winds of the morning sigh no more.

A stillness strange, divine, ineffable
Broods round and o'er them in the wind's surcease,
While we seek that last cope and shimmering dell
Rests the mute rapture of deep-hearted peace.

Last, sweet joines; the solemn joy and might
Born from the west, when cloudless day declines;
Low, flute-like breezes sweep the waves of light,
And lifting dark-green tresses of the pines.

Till every lock is lustrous; gently float,
Fraught with hale odors up the heavens blue,
To hint where Twilight on her virginal throat
Wears for a gem the tremulous vesper star.
